

FOR IMMEDIATE RELEASE

## **Commercial Marine Expo Returns to New Bedford**

### *2014 Event Dates Announced*

SOUTH PORTLAND, MAINE—Commercial Marine Expo (CME), a regional B2B trade show serving commercial marine and commercial fishing industry segments on the Atlantic seaboard, will return to New Bedford, Massachusetts at the State Pier, June 11–12, 2014. CME rotates annually between New Bedford and Hampton, Virginia.

Commercial Marine Expo brings qualified marine buyers and sellers together in a unique, business-to-business environment in the heart of New England’s commercial marine industries. It’s an opportunity for the industry’s leading suppliers and manufacturers to showcase new products and technology before an audience of hard-to-reach coastal and blue-water maritime professionals over two days.

CME is the only in-water commercial marine trade show in North America. New Bedford’s State Pier location allows exhibitors to demonstrate products and processes inside or outside, and to display and operate ships and boats from the piers and docks.

Commercial Marine Expo 2014 is scheduled for Wednesday, June 11 and Thursday, June 12. Admission is free to trade professionals who pre-register.
