

The logo features a circular emblem with a fish silhouette, a lighthouse, and a sailboat. To the right of the emblem, the text "National Coalition for Fishing Communities" is written in a dark blue, sans-serif font.

National Coalition for Fishing Communities

September 12, 2016

The President
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Obama:

We, the undersigned commercial fishing organizations and individuals, including members of the National Coalition for Fishing Communities, and our supporters, who collectively produce the majority of the edible finfish and shellfish harvested from U.S. waters, join with the Atlantic States Marine Fisheries Commission, the Regional Fisheries Management Councils' Council Coordination Committee, and over two dozen individual fish and seafood industry trade organizations in urging you to not use the federal Antiquities Act to create additional marine national monument and circumvent the Magnuson-Stevens Fishery Conservation and Management Act.

The federal fisheries management process is among the most effective systems for managing living marine resources in the world. Through it, government scientists, academic researchers, representatives of the commercial, recreational, and party/charter fishing sectors, and environmentalists routinely arrive at fishery management decisions that, while seldom being fully satisfactory to all of the participants, balance the often competing interests of all of the participants in an open and well-considered manner.

The misuse of the Antiquities Act to create a marine monument is a repudiation of past and ongoing efforts to make Magnuson-Stevens management even more effective.

Please let the bipartisan Magnuson-Stevens Act work as intended.

Respectfully,
